OFFICE SEEKERS COMING OUT

REPUBLICAN AND DEMOCRATIC CANDIDATES ALREADY IN THE FIELD.

Southern Indiana is Producing Most Republican Statesmen While Democrats are North.

Indianapolis, Ind., Aug. 2.—Southern Indiana will ask for several places on the republican state ticket next year. At present the outlook is that the southern half will furnish more candidates than the northern end.

The first district hadn't a candidate up to this time, although there was some talk of Phelps Darby, of Evansville for clerk of the supreme and appellate courts until he declared that he would not make the race and that he doesn't care to be considered.

The second district may have two or three candidates. Thomas Nugent of Washington is a candidate for the nomination for state treasurer. W. S. Hayes of Sullivan, who had charge of the speakers' bureau at the republican headquarters last year, is talked of for attorney general. The name of John Edwards of Mitchell, who led the Anti-Hanley forces in the legislature two years ago, is also mentioned in connection with the attorney general's office.

The third district will present J. M. Morgan of Orleans, for state treasurer. He was defeated for the nomination three years ago by Oscar Hanley. Representative Talbot of Paoli may become a candidate for attorney general.

It is rumored that a well known fourth district republican will become a candidate for state treasurer during the next few days. W. S. Blatchley, who has been geologist for years and is a candidate for re-nomination. He resides in the fifth district.

Judge Percy of Terre Haute may become a candidate for judge of the supreme court to succeed Judge J. V. Hilday of Danville. The fourth will present Judge Oscar Montgomery, of Seymour, for re-nomination for supreme court judge.

This is the first from the southern half of the state up to date, but there may be other candidates as the party workers from that section seem to think they are entitled to more consideration than formerly received.

John B. Faulkner of Michigan City who has represented LaPorte county in the legislature for the last two seasons, more than likely will be a candidate for the democratic nomination for secretary of state.

Representative Behmer of Elwood is a candidate for clerk of the supreme and appellate court on the democratic side. Representative Adam Wise of Plymouth is a candidate for the democratic nomination for attorney general. Efforts are being made to induce Senator Carroll K. McCullough of Anderson to run for the democratic nomination for senator.

There promises to be an unusually large field of democratic candidates.

In order that the position of the anti-saloon league may be squarely understood, E. M. Barney, superintendent of the Indianapolis district, declared at a meeting of the temperance forces at Bethany park Thursday, that the league is advocating state-wide prohibition.

He wanted to correct an impression created lately that the league is not in favor of the state-wide plan. Barney is one of the strongest leaders of the league and he has the faculty and habit of making himself clear at all times so that his declaration that the league is for state-wide prohibition may be regarded as conclusive.

There is speculation among the anti-saloon league workers how the impression gained circulation that they were not going to advocate state-wide prohibition. "State-wide prohibition by 1912" has been the slogan of the league since it inaugurated its county local option crusade and as far as is known, it never did anything but to create the belief that it has laid down.

The importance of Barney's utterance, which seems to have aroused the prohibition politicians to alarm, is a turning point, in that he declared that the anti-saloon league does not believe in attempting to obtain state-wide prohibition through any political party.

At the Bethany conference there was a strong declaration of principles not only in favor of obtaining prohibition through the prohibitionist party, but for total abstinence. The platform was as radical, or more radical, than ever.

Barney, in attempting to outline the ideas of the anti-saloon league, evidently started in to explain that the league is strongly in favor of state-wide prohibition but is opposed to trying to get it through either of the old parties.

His statement bears out statements made here lately that the anti-saloon league will refuse an alliance with any party in the future, having had more unpleasant notoriety and trouble than it cared to accumulate on account of the local option fight last year.

The league will try, it is said, to obtain a state-wide prohibition amendment by urging both of the old parties to nominate good men for the legislature who will not object to a submission of a state-wide amendment to the people of their decision.

It is declared that only the radical element of the league workers wants to attempt to force the next legislature to adopt a statutory state-wide law.

DEATH TOLL WAS HIGH.

Placed Electric Roads in Bad Comparative Light—But One Person Killed on Steam Roads.

The death toll in the wreck of two interurban cars on the Chicago Lake Shore and South Bend line at Chesterton in June has placed the interurban roads of the state at great disadvantage in a comparative statement of fatalities for April, May and June, as shown in the accident report for that quarter, which is soon to be issued by the Indiana railroad commission. Eleven of the twelve passengers killed by interurbans during the quarter were killed at Chesterton. For the same quarter the steam roads killed only one passenger.

A comparison of the report for the quarter just ended with the report for the corresponding quarter of 1908 shows the following: The casualties to passengers on steam road passenger trains declined from 35 to 25 or more than 20 per cent. The casualties to passengers on freight trains, increased from two to seven; those hurt in collisions dropped from two to one.

A similar comparison for the quarters respecting interurban roads shows a frightful increase of casualties, says the report. "In the corresponding quarter of 1908 there was a total of 38, as against a total of 88 for the quarter just ended, an increase of 230 per cent. Those injured in collisions sprang from seven in 1908, an increase of over 200 per cent. The deaths were twelve as against none for the corresponding quarter of last year. It should be noted, however, that the figures do not show a general and proportionate distribution of grave accidents over all the electric lines of the state, but the most serious results were confined to a few roads."

SPANIARDS ARE DEFEATED

IN BATTLE AT MELILLA WITH LOSS OF 3,000 REPORT.

Madrid, July 29.—Spain tonight is rent by two fears—the fate of the army in Morocco and the situation in the Mediterranean provinces in Catalonia. At the outskirts of Melilla, the Spanish arms have suffered a serious shock. These thoughtful soldiers have either been slain or wounded and the Moorish hordes are fighting at the very walls of the city itself.

News from Barcelona, the center of the revolutionary outbreaks is exceedingly meager and unsatisfactory. One report is that the revolutionists are using bombs and that 100 persons were killed and 200 wounded during the earlier stages of the conflicts.

It was officially announced that the cavalry engaged at Barcelona succeeded in driving into St. Martin Square the principal bands of revolutionists, against whom the artillery opened fire, causing great losses. The survivors surrendered.

The official statement further says that it now remains only to master small groups of revolutionists in the villages in the vicinity of Barcelona.

May Set Up Dictatorship.

The report that a provisional government has been established at Barcelona and that the governor has been assassinated is unconfirmed, but rumors are persistent that Premier Maura will resign and that a military dictatorship will be set up in Madrid.

The internal condition of Spain is bordering on anarchy and the gravity of the situation suggests the bloody days of the Paris commune. It is reported that a vast crowd has held an anti-war manifestation in front of the royal palace.

The call to the colors of the revolutionists of 1906-1907 who are on leave was without result, not a single recruit reporting for duty.

Although preparations are being made for the return of the royal family to Madrid, their departure from San Sebastian will depend entirely upon developments in the internal situation of Spain. Queen Victoria and Dowager, Queen Maria Christina are occupied in organizing a committee of women to collect funds for the war victims.

Throughout the day advices received from various quarters indicated that the disturbances in Catalonia were quite as serious as yesterday, although the government has succeeded in getting troops through to certain of the disaffected points. The lines of communication, which have been cut every where in Catalonia, have in part been repaired.

Origin of the Trouble.

In Madrid, as well as other cities throughout the country, there have been loud mutterings for a long time past, and the serious situation in Morocco gave the opportunity for the rising of the revolutionists at Catalonia in protest against the sending of further troops to that country.

The recruiting system has served to increase the dissatisfaction of the army of 20 years of age must report for military duty in general. All Spaniards are in duty bound to remain in the country for a year, if in subsequent drawings by lot, however, they are unfortunate they can buy exemption for \$300. Only the poor people, therefore, serve. Moreover, of recent years, in order to economize, the recruits who were supposed to serve three years in the army and three years in the reserves, were given unlimited leave at the end of the year.

When the war broke out in Morocco, therefore, the battalions, with a nominal strength of 850 men, had only 200 to fill the gaps, and not only were the reserves on leave recalled, but on July 26 the next year's recruits were called out. Most of the recruits were married and have children and the despair of their wives is pitiful. The soldiers insist that the only fair way is a compulsory service, which takes rich and poor alike.

Moors Attack Alhucemas.

A dispatch received last night from Alhucemas, Morocco says: "An army of 6,000 Moors is now attacking this place." Alhucemas is a small island fortress and prison situated in the Mediterranean, five miles south east of Cape Morro. The dispatch says that the Spanish fort opened fire as the Moors approached.

A report that King Alfonso would form a military cabinet, presided over by General Weyler, are officially denied. There is no confirmation of reports that General Weyler has been commissioned to crush the internal disorder of Spain.

Six battalions of Spanish troops from the Algerias and neighboring garrisons embarked on steamers to Melilla to reinforce the Spanish forces there. The morale of the troops is described as being excellent.

Better Not Get Dyspepsia

If you can help it. Kodol prevents Dyspepsia, by effectually helping Nature to Relieve Indigestion. But don't trifle with Indigestion.

A great many people who have trifled with indigestion, have been sorry for it—when nervous or chronic dyspepsia resulted, and they have not been able to cure it. Use Kodol and prevent having Dyspepsia.

Everyone is subject to indigestion. Stomach derangement follows stomach abuse, just as naturally and just as surely as a sound and healthy stomach results upon the taking of Kodol.

When you experience sourness of stomach, belching gas and nauseating fluid, bloated sensation, gnawing pain in the pit of the stomach, heart burn (so-called), diarrhoea, headache, dizziness or chronic tired feeling—you need Kodol. And then the quicker you take Kodol—the better. Eat what you want, let Kodol digest it.

Ordinary peppermint dyspepsia tablets, "physics," etc., are not likely to be of much benefit to you, in digestive ailments. Pepsin is only a partial digester—and physics are not digesters at all.

Kodol is a perfect digester. If you could see Kodol digesting every particle of food, of all kinds, in the glass test-tubes in our laboratories, you would know this just as well as we do.

Nature and Kodol will always cure a sick stomach—but in order to be cured, the stomach must rest. That is what Kodol does—rests the stomach, while the stomach gets well. Just as simple as A, B, C.

Our Guarantee

Go to your druggist today and get a dollar bottle. Then after you have used the entire contents of the bottle if you can honestly say, that it has not done you any good, return the bottle to the druggist and he will refund your money without question or delay. We will then pay the druggist for the bottle. Don't hesitate, all druggists know their guarantee is good. This offer applies to the large bottle only and to bottles in a family. The large bottle contains 150 pills as much as the five cent bottle.

Kodol is prepared at the laboratories of E. C. DeWitt & Co., Chicago.
